And Graphic  
Designer

Myo Myat Thu

# About Me

I am a Frontend Developer skilled in HTML, CSS, JavaScript, React, and Vue.js, with additional knowledge of Figma, Photoshop, Illustrator, and Blender. Currently pursuing a Bachelor's in ICT at Rangsit University, I combine technical development with design and marketing experience. Passionate about coding, DevOps, and continuous growth, I also enjoy graphic design, 3D modeling, and creative projects.

**Myo Myat Thu**

I showcased my creative abilities and frontend skills during the 2025 ERP System Hackathon by helping design and build intuitive user interfaces for a hospitality ERP platform. This role enhanced my strengths in UI/UX design, teamwork, and translating visual ideas into functional digital experiences.

To demonstrate my creative and leadership skills, I led my dance team to win two trophies in consecutive years. I was responsible for planning routines, organizing schedules, and teaching choreography. This experience strengthened my ability to manage projects, coordinate teams, and deliver creative concepts—skills that directly support my work in content creation, social media planning, and visual storytelling.

2nd Runner Up For Cover Dance Competition At 2024

1<sup>st</sup> Runner Up For Cover Dance Competition At 2023

# My Skills

HTML,CSS,Js,  
Bootstrap

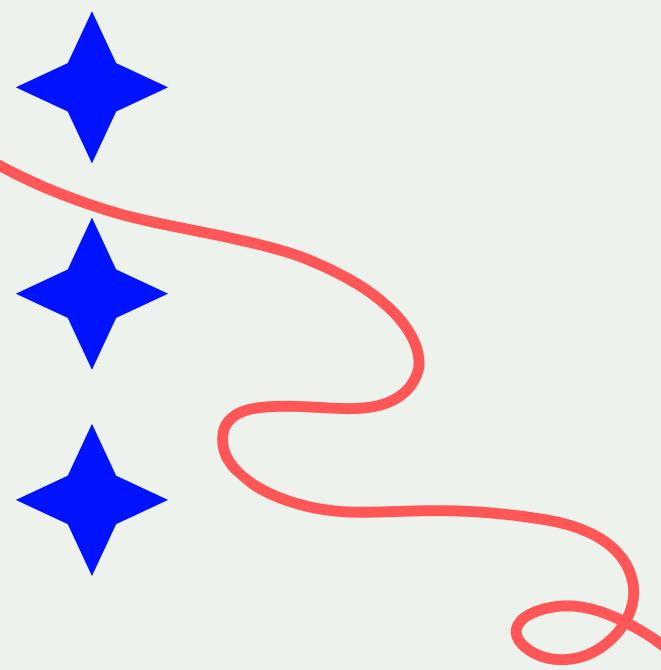

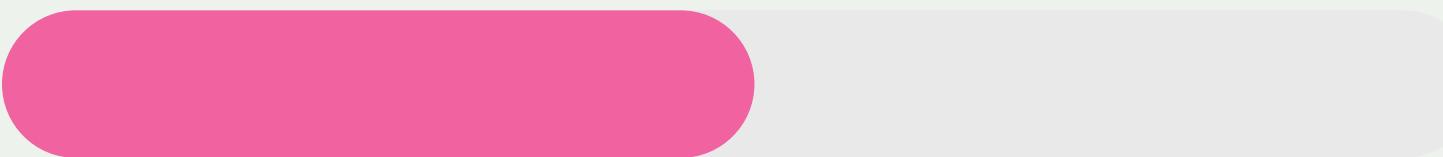

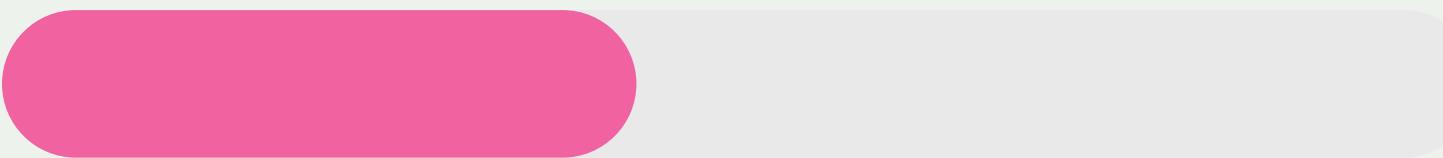

REACTJS, VUEJS

PHP/Laravel

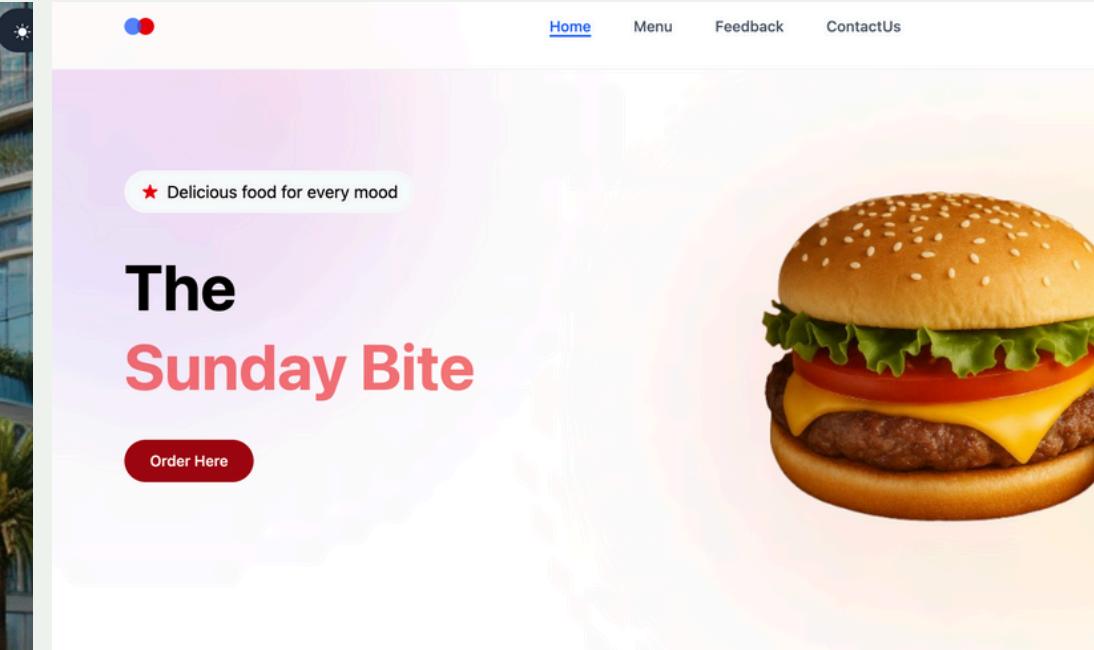

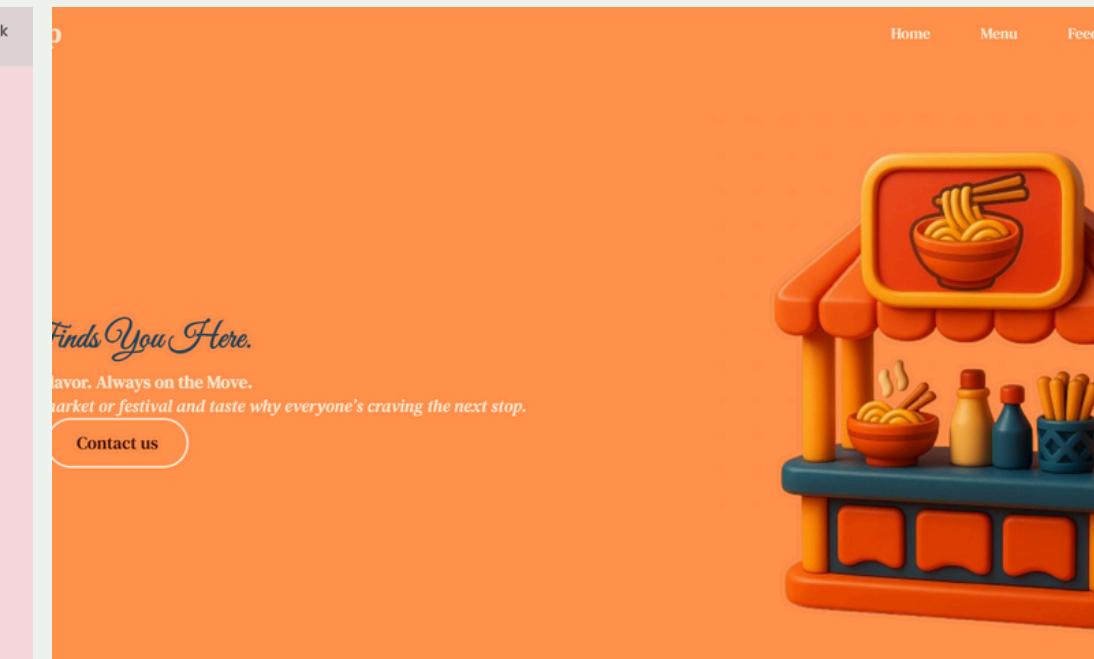

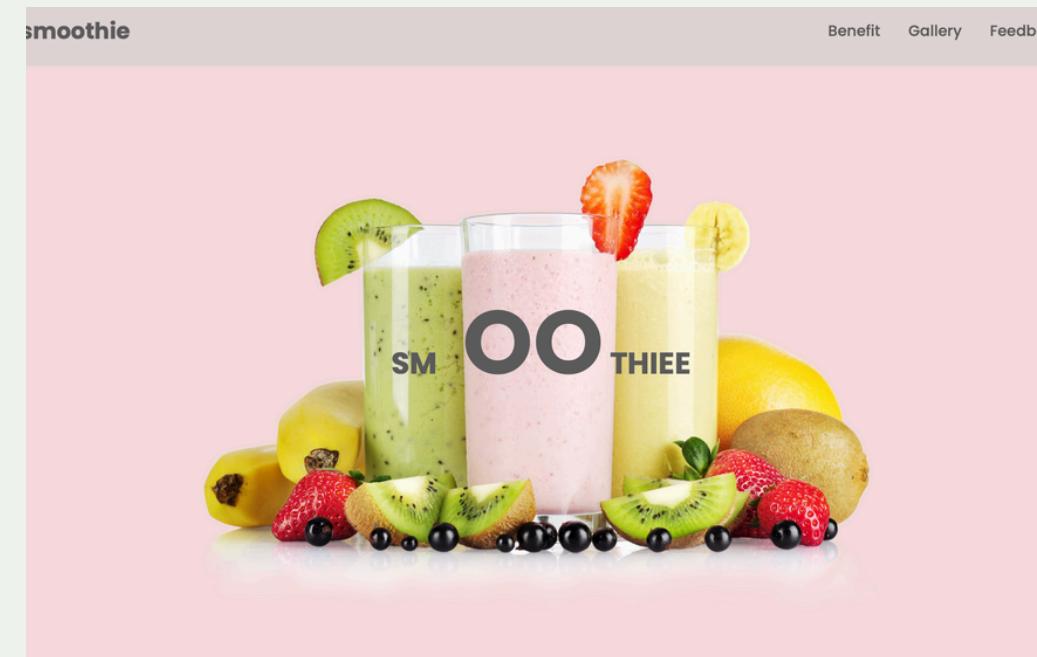

Python

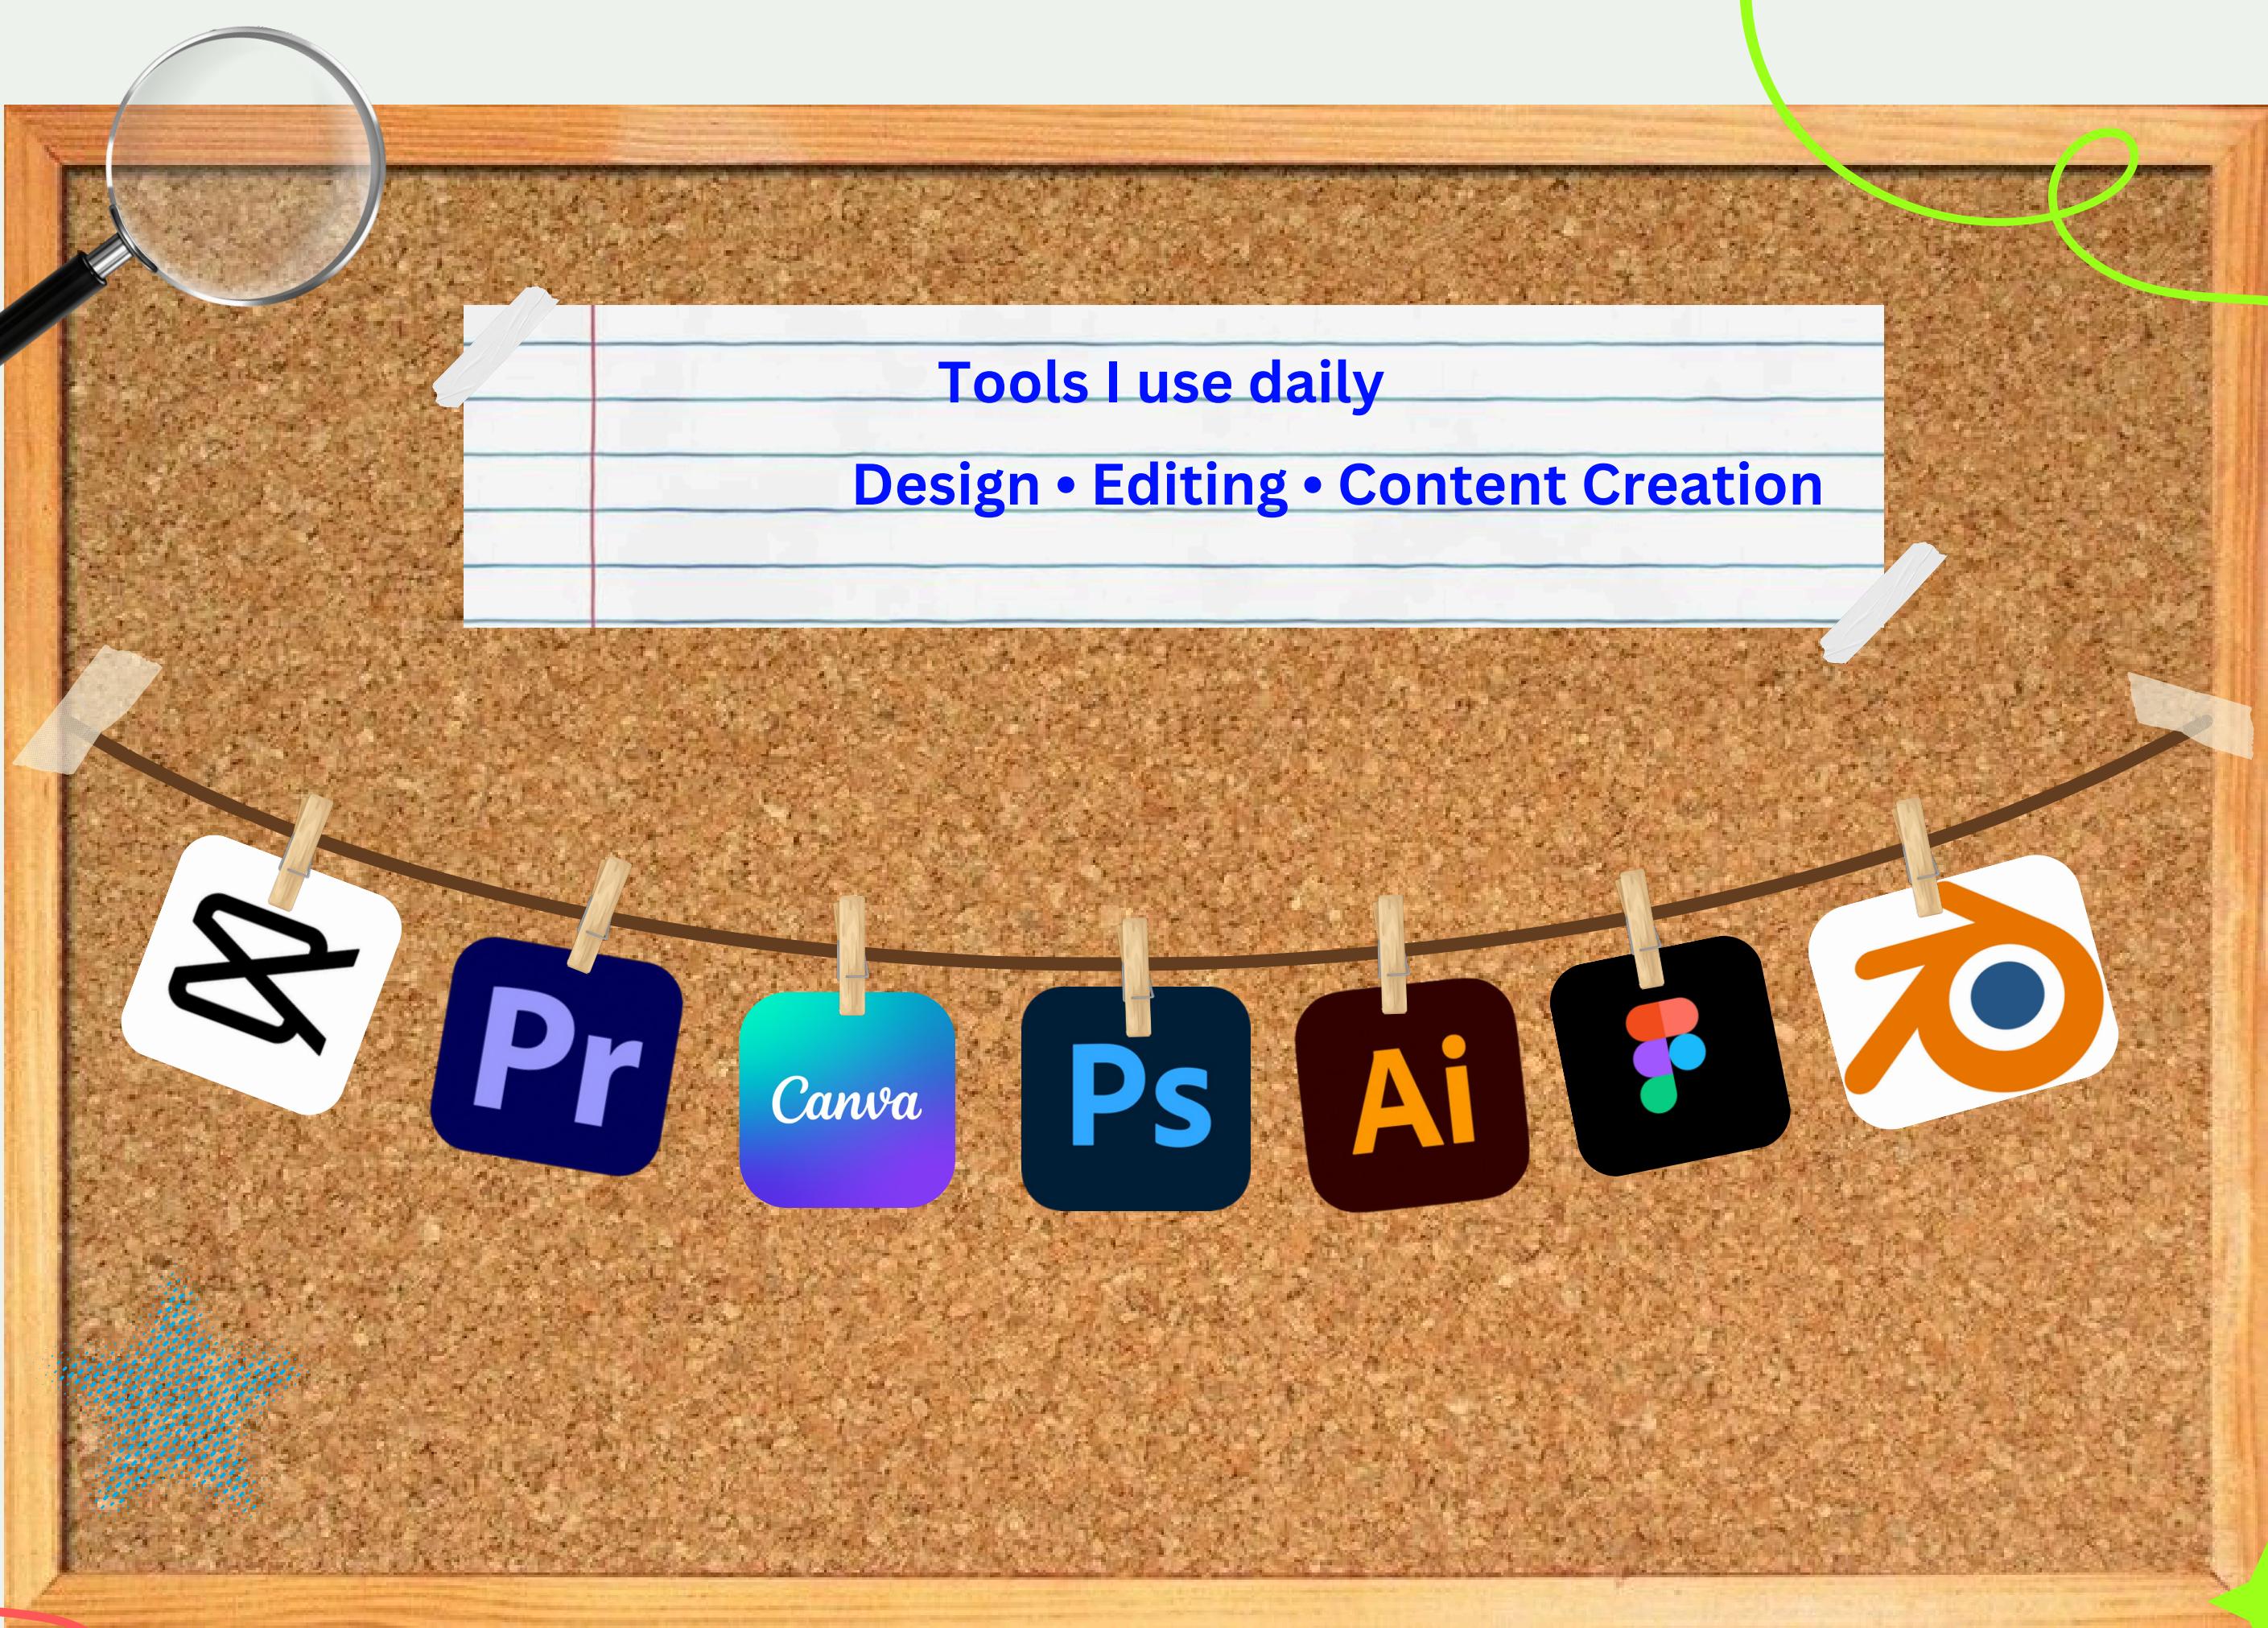

PS/AI/Blender
